- Two-way wireless control

inMotion **SoundBlade**

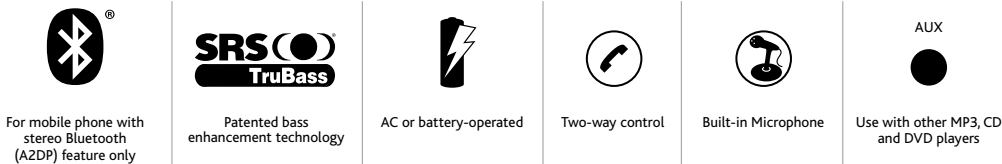

For mobile phone with stereo Bluetooth (A2DP) feature only
(Mobile phone not included)

ALTEC LANSING®

TURN YOUR MOBILE PHONE INTO A GENUINE SOUND MACHINE

Listen to the music files on your Stereo Bluetooth®-enabled mobile phone*, or take a call. Either way, it's headphones-free with the Altec Lansing SoundBlade Wireless Speaker System. An amplified extension of your music-enabled mobile phone, the SoundBlade replaces headphone listening and delivers high quality, crystal-clear sound.

inMotion SoundBlade

Big sound from an ultra-thin design

Altec Lansing speakers enhanced with SRS TruBass technology deliver a powerful, immersive experience with the perception of deep, rich bass. And at just 1" thick, the SoundBlade goes where you go.

Crisp, clean sound

Two custom-built 2.5" full-range speakers deliver a strong performance.

Speakerphone

A built-in, echo-cancelling microphone turns your Stereo Bluetooth® mobile phone into a first-class speakerphone.

Easy to set-up

No cables to connect, and pairing between your mobile phone and the speaker is automatic.

Two-way wireless control

Use your mobile phone like a wireless remote to control speaker functions, or use the speaker to control music functions on your mobile phone.**

Voice-activated dialing

The SoundBlade picks up your voice from several feet away.

Shielded design

GSM/CDMA shielding prevents speaker buzz.

PACKAGING SPECIFICATIONS:
